

USE OF THE WRISTBAND AT SPA WATER WORLD Resident guests at Spa Hotel Levitunturi

Guests staying at Spa Hotel Levitunturi receive on arrival a personal wristband allowing the guest one daily admission to Spa Water World, also on the day of departure. The band is also used for admission to morning swim and the gym. The wristband is to be returned to hotel reception on departure.

There are two entrance gates to Spa Water World in the lobby of the Spa. The gate next to Spa Info (1.) is open all year, the second one depending on the season.

To enter, touch the reader on the gate (2.) with the round “watch dial” spot of the band. Follow the red footprints!

Men and women have separate dressing rooms. Select a vacant locker in the dressing room. When ready to move on, close the locker door and touch the reader (3.) with the round spot of the band. With this same procedure you can open and close the door as many times as you wish.

You do not need to remember the number of your locker. There is a reader in the dressing room (4.). Touch it with the round spot of the band and it will tell you the number of your locker.

When leaving Spa Water World you use the same gate as when entering. Touch the reader (5.) once more with your wristband to open the gate. And the right direction through the gate is indicated with the footprints on the floor!

USE OF THE WRISTBAND WHEN YOU ARE NOT STAYING AT OUR HOTEL

You receive a wristband at Spa Info when paying for your admission. See paragraphs 1 to 4.

When leaving Spa Water World, take the band off your wrist.

HOLDING THE BUCKLE WITH YOUR HAND, deposit the wristband in the opening on the gate (6.)

The gate will then open. The correct walking direction is indicated with the red footprints on the floor.
